WHO THIS COURSE IS FOR

- Students aiming for software development roles
- Career changers switching into tech
- Anyone who tried coding and felt lost before
- Graduates targeting product or service companies

Training that's built around you

CareerLabs is a career-focused training institute based in Madurai. We were founded on a simple belief — that practical, job-oriented training should be available to anyone willing to learn. We run small-batch programs so every student gets real attention, not just a seat in a classroom. Our courses are designed around what companies actually hire for, not just what looks good on a syllabus. From your first demo class to the day you receive your offer letter, we are with you at every step.

What Students Say

Honest feedback from people who went through the Java program at CareerLabs.

"Java felt overwhelming before this course. The way CareerLabs breaks it down — starting from how programs think — made everything click. I cleared 2 technical rounds using concepts from this course."

Karthik V.
Java Developer at IT Firm

"The OOP modules were taught with real examples, not just theory. I finally understood how large applications are structured. My GitHub project got noticed in my very first interview."

Meena S.
Software Engineer, Coimbatore

"I had tried Java tutorials online but always got stuck. Having a mentor who actually answers questions makes all the difference. Now I write Spring Boot APIs at my job every day."

Rahul D.
Backend Developer

COURSE FEE

Fee varies by training mode — Classroom, Online, Weekend & Fast-Track are priced differently. Contact us for the current schedule and fee details.
