WHAT YOU'LL LEARN

01 Design Fundamentals

Colour theory, typography, layout & visual hierarchy — the foundation everything is built on

02 User Research & User Flows

How users think — research methods, journeys and designing for real clarity

03 Wireframing & Architecture

Structure screens before visuals — low-fi wireframes mapping the full user journey

04 Interface Design & Figma

Polished interfaces and interactive prototypes ready to hand off to developers

- Anyone with no prior design experience
- Career changers entering a creative tech role
- Developers wanting to understand design thinking
- Anyone with an eye for detail and usability

Training that's built around you

CareerLabs is a career-focused training institute based in Madurai. We were founded on a simple belief — that practical, job-oriented training should be available to anyone willing to learn. We run small-batch programs so every student gets real attention, not just a seat in a classroom. Our courses are designed around what companies actually hire for, not just what looks good on a syllabus. From your first demo class to the day you receive your offer letter, we are with you at every step.

What Students Say

Honest feedback from people who went through the UI/UX Design program at CareerLabs.

★★★★★

"I came from a non-design background and was nervous. But the course starts from absolute basics. By the end I had a Figma portfolio with three case studies and landed a job within a month."

Lakshmi P.
UI Designer, Tech Startup

★★★★★

"The emphasis on user research changed how I think about design. It's not just about making things look nice — it's about solving real problems. CareerLabs teaches that difference clearly."

Bharath R.
Product Designer

★★★★★

"I now take freelance projects with confidence. The portfolio work during the course was professional enough to show real clients. Two clients came from seeing my Behance profile."

Anitha C.
Freelance UI/UX Designer
